Have you had acupuncture before? YES NO

I hereby request and consent to the performance of acupuncture treatments and other procedures within the scope of the practice of acupuncture on me (or on the patient named below, for whom I am legally responsible) by Washington Acupuncture & Traditional Chinese Medicine.

I understand that Traditional Chinese medicine includes various modalities including Acupuncture, herbal medicine, TuiNa massage, Guasha (a dermal friction technique), Moxibustion, Acupressure and other types of hands-on techniques. While very effective, these techniques are not necessarily a substitute for conventional care.
I understand the risks of receiving treatment include bruising, numbness near the needling sites and sometimes dizzi-ness. Bruising is a common side effect of cupping. Extremely rare side effects of acupuncture include nerve damage and organ puncture, particularly lung puncture (pneumothorax). Burns and scarring are a potential side effect of moxibustion and cupping.

I understand that the herbs and nutritional supplements are generally considered safe when prescribed by a licensed practitioner of Chinese medicine. Some possible side effects of taking herbs or supplements include nausea, gas, headache, rashes and diarrhea.

I will report any side effects to the office and I wish to rely on the clinical staff to exercise judgment during the course of treatment, based upon the facts then known that is in my best interest. I understand that while the clinical staff may review my patient records and lab reports, all my records will be kept confidential and will not be released without my written consent.

I do not expect the clinical staff to be able to anticipate and explain all possible risks and complications of treatment, and I wish to rely on the clinical staff to exercise judgment during the course of treatment which the clinical staff thinks at the time, based upon the facts then known is in my best interest. I understand that the results are not guaranteed.

I understand the clinical and administrative staff may review my patient records and lab reports, but all my records will be kept confidential and will not be released without my written consent.

By voluntarily signing below, I show that I have been told about the risks and benefits of acupuncture and other procedures. I intent this consent form to cover the entire course of treatment for my present condition as well as any future conditions for which I seek treatment. Payment is due at the time services are rendered. Herbal medicine fees are additional to visit costs.
